- 8. Signalisation:** All tracks are signposted, of course. But don't expect barrier tape on each meter of the course/track. Keep your eyes open, both on the timed and linking stages.
- 9. Starting list/slots:** The starting slots for the 1st session are set by the race organisation. For the first 100 participants the results of 2016 are basis for the starting list. All other participants will follow in order of their starting number. We'll hand out a „starting ticket“ at the registration (order in blocks by 1, 2, 3..).
- 11. Mountain railway/lift:** We'll use the chair lift to top of Bocksnerg mountain two times on Sunday!
- 12. Rules for the start:** At each start of the timed sections the „Gate Directors“ will make a call for the riders and take care for a minimum gap of about 15-20 sec. All participants have to stay/wait BEHIND the Gate Director!!
- 13. Timing I:** The end of each timed session will be announced by a sign „Finish 50 m“ (if it's not visible in this distance) by finish banners and by barrier tape at both sides. Furthermore there will be a steward at the end of the timed session.
- 14. Timing II:** The personal transponder saves all data of each session, the transponder is activated when you get it after your accreditation. It's mandatory to read out the transponder AFTER each session. **Therefore it is absolutely IMPORTANT to pass the the TRAILTROPHY-tent near the FINISH ARCH at the Festplatz BEFORE and AFTER each session. Without anylising the transponder is it not possible to start the following session!!**
