The right of revocation is excluded according to § 312g Abs. 2 Nr. 9 BGB.

II. COMPETITION RULES

1.Course of TrailTrophy Sessions:

The TrailTrophy will be judged in 2 individual stages/sessions. These take place:

- Session No. 1, Saturday, 11.05.2019
- Session No. 2, Sunday, 12.05.2019

1. a) Course of a Session

The routes are unknown to the participants before. Only the general route data (length/altimeter) will be published. The start of each session is not a mass start and is neutralized. This means that there is no fixed start time. Instead there is a time corridor in which the participants go individually or in small groups to the respective course. Within a session, time is taken on individual stages. The number of timed stages will be announced on site. The beginning of the timekeeping will be announced in time by signs or there will be marshals. If the participants reach the beginning of a stage, they drive through the time measurement.

Depending on the character of the stage (e.g. pure descent), marshals ensure that the participants enter the track/single trail at certain intervals. The end of the stages is announced in advance by signs "Finish 50 m"; the finish is visibly marked or, depending on positioning, additionally secured by a marshal. After the stage the participants drive on a neutralized route to the next stage or to the start/finish area. The memory chip is evaluated there.

1. b) Start (conditions and order)

The starting order for the first session will be announced 2 hours before the start on Friday. Depending on the character of the session, the organisation office will determine a starting order (individually or in groups). It is mandatory to keep to this order! The results of the previous session(s) will be used as the basis for all subsequent sessions. In order to avoid waiting times before the departures, blocks of participants may be formed new before the start. The fastest racer (after the intermediate classification) starts first in the group. Within a group the participants can also agree among themselves in which order they enter the stages.

2. General information

Basically all sessions and stages have to be done with a bike! Frame and fork are marked before the start with stickers, which may only be removed after the end of the race.

Start Plate:

Handlebar start plates are issued. The plate must be clearly visible on the front of the bar.

Timing:

Slower riders must let faster participants pass (this will be signalled to the riders by the marshals if necessary). This request must be complied. However, faster drivers do not have to push slower participants. Whoever does this as a faster rider can be fined with a time penalty. At the end of each session there will be an evaluation and an update of the overall ranking. The intermediate classification is decisive for the starting order of further sessions. Here faster riders start as first out of the respective groups. This is to ensure that all participants can enjoy the trails as freely as possible.

IMPORTANT GENERAL INFORMATIONS:

Leaving the trails and marked routes is NOT permitted. The tracks of the TrailTrophy are not marked continuously at the sides, "crossing" in the free field of serpentine bends or similar is also considered a shortcut. This will be punished by the race control with appropriate time penalties; repeated abbreviations can lead to exclusion from the classification. The DIMB Trailrules apply, i.e. leaving or cutting the trails contradicts the "Trail-Ethics".

3. Other requirements/conditions

In principle, helmets are mandatory, even on ALL transfer routes without timekeeping. On all sections it is strongly recommended to wear protective clothing or knee/shin and elbow pads as well as a (protector) backpack. On ALL evaluated stages the wearing of knee or shin pads is mandatory, the wearing of elbow pads as well as a back protector (or corresponding backpack) is strongly recommended. It is also recommended to wear a full visor helmet on the stages.

Violations of the rules will be punished as individual violations with 2 minutes time penalty, if repeated a disqualification threatens.

4. Technical requirements and evaluations

4. a) Technical Requirements

The TrailTrophy is approved for 26", 27.5" (650B), 650B Plus, 29" mountain bikes and fat bikes. All sessions must be ridden on the same bike. No changes to the chassis are permitted, e.g. replacement of the suspension fork. In the event of irreparable defects, the organizer must be contacted regarding the exchange of materials. Mountain bikes with motor support (pedelecs, E-MTBs etc.) are NOT permitted. Frame and chassis (suspension fork) will be marked accordingly before the start. The organizer checks the compliance before or during a session. The suspension fork may be changed/replaced:

-Tubes and tyres, wheels, seat posts and other components

Violations of these regulations will be punished with a time penalty of 2 minutes per violation. No advance warning will be given.

4. b) Valuations

The TrailTrophy will be judged in the following classes:

Women (Rider Class Women)

Men (Rider Class Men, Master Class Men and Super Masters)

Ambassador Class (Men/Women/Team: riders of the sponsors)

Team (Team of three participants/team members must come from three different classes)

NOTE: For the women team classification at least 4 women teams must be registered in advance for a team classification to take place!

Older participants can be evaluated in a younger age group on request. The corresponding class must be indicated when registering.

Rating hobby rider/team rider:

Basically all riders will be judged in the Everyman categories. Invited drivers (wildcards) and riders of the sponsors etc. will be classified in a separate classification.
